TRUSTEES' REPORT OF GILSUM PUBLIC LIBRARY

During the past two years many new reference books for children and young adults have been purchased. The interior of the Library has been painted, books and

shelves cleaned, and new, more efficient lighting has been installed. As a result, we find that grammar and high school pupils have been using the Library more for study and research.

Excellent publicity of Gilsum's participation in National Library Week in April appeared in issues of "Yankee" and "North Country Libraries". The gifts of portable bookcases from the Grange, an Atlas from PTA, "The Complete Works of Robert Frost" from the American Legion Auxiliary, and the National Legion Magazine from the American Legion were presented at an "open house" during National Library Week. The Ladies' Aid held a food sale for the National Geographic Binding Fund, and members of the Home Demonstration Group spent time covering book jackets of some of the new books.

The Trustees voted to organize a group to be known as "Friends of The Library" to stimulate public support and interest in the Library. Art exhibits have been displayed in the Library using materials from the Metropolitan Seminars in Art. Action was taken in December 1960 to sponsor a discussion group in Gilsum in connection with the National Group on "Great Decisions 1961." Plans are now being made to show educational films for children and adults once a month.

The Library has been represented at two meetings of the N.H. Association of Library Trustees in Concord.

We would like to thank all individuals and groups for their help in our work.

- 118 pupils had vision tests given by the school nurse
- 5 pupils received vision notices
- 68 pupils had hearing tests given by the school nurse
- 132 pupils were weighed and measured

Within our school health program we attempt to attain health improvement of each individual within the group. No two children are exactly alike, each child has distinctive characteristics and special needs. Today we have better understanding of nutrition, new methods of instruction, materials for instruction are more plentiful, interest in mental health has a deserved prominence, school environment is improving, in most areas, and with continued cooperation and interest child's total development will benefit from the school health program.

I wish to take this opportunity to thank you all for cooperation with the school nurse, Mrs. Damon, during my leave of absence.

Respectfully submitted,

MRS. ELLEN PEARCE,
School Nurse

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Gilsum:

I herewith submit my annual report as your Superintendent of Schools:

Gilsum's elementary per pupil instructional cost for 1959-60 was \$212.94 which is an increase of \$25.27; however, Gilsum's cost of instruction is \$53.00 less than the state average.

The principal area of increase this year is teacher salaries. It shows an increase of \$1,225.00 which is a considerable increase for one year. Part of this increase occurred this year as an additional \$450.00 was used for salaries to enable us to hold our present teaching staff.

Gilsum teachers plan to take part in a Supervisory Union workshop to be held August 30, 31 and September 1st at the Walpole High School. It is planned to study methods of improving teaching techniques in Science, Arithmetic and Reading with the help of outstanding consultants in each field.

The workshop is in addition to the 180-day school year for pupils as is the day allowed in the schedule for the annual teacher convention in October.

The guide book of school regulations mentioned in last year's report has been completed and adopted by the School Board. Each teacher and School Board member has a reference copy.

A closet formerly used to store janitor supplies has been arranged with shelves and now serves as a library and central storage for reference materials.

We have been able to purchase more reference books and teaching aids, such as the mobile demonstration laboratory table, with the matching funds received under the provisions of the National Defense Education Act. These materials make it possible for the teachers to do a better job in the fields of Science and Mathematics.

Mr. Davis and Mrs. Jernberg have departmentalized their teaching in English and Science. This allows each teacher to teach in the area of their major preparation.

During the 1959-60 school year there were several joint meetings of the school boards of Alstead, Acworth, Marlow, Langdon, Walpole and Westmoreland for the purpose of discussing the possibilities of forming a cooperative district. This year the school boards of Gilsum and Surry have also attended the meetings.

Interest last year was directed toward the formation of a grade 7-12 cooperative. However, information presented by Superintendent Keach and Mr. Russell, from the State Department of Education, indicated that a grade 1-12 cooperative would be more beneficial than the 7-12 cooperative.

Considerably more study is needed to gather factual material that is needed by the school boards of each community in order that they may have information to aid them in making their recommendations and also to aid the citizens of each district in their decision as to what is the best educational pattern to follow.

Each board is planning to include an article in the school district warrant that gives the opportunity for the district to decide whether or not to take part in an educational survey.

An educational survey will cover every major aspect of the school situation in each town including an analysis of existing facilities, forecasts of future enrollments, study of the educational needs, suggested curriculum offerings, a review of the advantages of establishing a cooperative

school district, and an analysis of the financial problems and tax implications of a cooperative system versus continuing as a separate unit.

Three of the school districts mentioned above send their high school pupils to Keene as tuition pupils. It would appear that these communities should have available alternate plans in the event that Keene decides to discontinue their present policy of taking tuition pupils from surrounding communities.

I strongly recommend that each district vote to take part in this educational survey. A district may decide not to follow the recommendations, however, the decision can be made on the basis of factual information.

Miss Marjorie Shay replaced Mrs. Shirley Houle on February 1st, 1960. Mrs. Houle returned this year as teacher of grades three and four.

A decrease in the estimated State Aid and an increase in the estimated balance resulted in a final figure of \$21,-301.38 to be raised by taxation for the school year 1960-61. This is \$135.98 less than the amount estimated at the time the budget was voted.

Superintendent of Schools

PREVENTION IS YOUR BUSINESS

Carelessness, HUMAN CARELESSNESS, causes 9 out of 10 forest fires. Each year 200,000 fires burn over 30 million acres in the United States. This represents 5 percent of our nation's woodlands being wasted each year. Every fire takes its toll. Floods follow; stream flow is affected; timber, buildings, grazing and wildlife are destroyed — all because MANY are CARELESS with fire in and near woodland. This can be remedied. YOU can put an end to this shameful waste! PREVENTION is YOUR business!

YOU, whether YOU be a farmer, homemaker, business or professional man or woman, municipal, state or federal official, clerk or woodsman can play an important part in the continuing and vital prevention program.

First — by setting a good example YOURSELF — being sensible and complying with the necessary laws and regulations governing the use of fire in and near woodlands.

Second — by using YOUR individual influence in your community and valued council with others in insisting and encouraging them to do likewise.

The following simple rules may be used as a guide both for YOU and for them.

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning — don't leave it.
3. Make certain your fire, camp or debris, is DEAD OUT before leaving it.
4. Don't throw down lighted matches, cigars and cigarettes or from moving vehicles — make sure they are out — Use your ash tray.
5. Don't burn at home — use your town dump and save yourself much possible difficulty, both personal and financial.

No. of local fires 6

No. of acres burned 11½a
